

FILTER AIDS

For the Brewing Industry

Five Star offers 3 grades of DICALITE DIATOMITE FILTER AIDS (Diatomaceous earth). DICALITE DIATOMITE FILTER AIDS offer outstanding performance from the finest to the coarsest grades. These materials meet all requirements for good filter aids. This enables them to meet the exacting clarity demands in the craft brewing industry. Even more important, the user can depend on consistency and uniformity load after load.

❖ **PROPERTIES**

Properties	Speed Plus/Hi Flow	Speed Flow/FP-4	Super Aid/FP-2
Color	White	Pink	Pink
Flow Rates	700	320	200
Approx. DARCIES	1.0	0.22	0.08
Microns	32	16	11
Clarity Produced	Very Clear	Sparkling	Sparkling
Size of Particles Removed	0.68	0.5	0.4 microns
